ABOUT US

MOST FLEXIBLE CRYPTOCURRENCY INVESTMENT COMPANY

WE ARE Crescel Wealth Moon

Our approach to active investment management is based on an investment process that fully integrates sustainability analysis into our decision-making and is focused on long-term performance. We construct portfolios of sustainable instruments with the confidence derived from our deep research and analysis.

Our Mission

To deliver superior investment performance by consistently taking a long-term view and fully integrating sustainability research within a rigorous framework of traditional financial analysis.

Our Values

We are committed to providing exceptional client service — above all by delivering superior long-term performance and by ensuring that our interests are aligned with those of our clients.

Our Vision

Our vision is to see long-term, sustainable investing become best practice, and for sustainable capitalism to become the enduring economic model.

The Better Way to Save & Invest

Crescel Wealth Moon has played an integral role in the development of sustainable investing and in demonstrating the long-term commercial benefits of this approach. As Investment Service Providers, we have placed the acquisition of knowledge at our core ever since our first director said “every investment strategy should be research-driven”. We were one of the first asset managers to pioneer investing in emerging markets, the first to take sustainability investing seriously, and one of the first to adopt quantitative investing using advanced research techniques. Now we integrate sustainability investing as standard, while constantly developing new techniques in a range of fields including factor investing, equity trends and cryptocurrency.

We aim to enable our clients to achieve their financial and sustainability goals by providing superior investment returns and solutions. We do this by offering a compact, client-oriented and distinctive range of actively managed investment strategies and investment solutions. And so our mission remains to use a research-based, quality-driven process to produce the best possible long-term results for our clients. We uniquely integrate fundamental, quantitative and sustainability research. Portfolio managers use the insights from all three, allowing them to make better-informed investment decisions. Risk management is essential, which is why we say we will always believe in long-term, sustainable capital growth.

Solutions for Every Business Need.

To view your transaction History click on My Transaction

The image shows two screenshots of a user dashboard. The top screenshot is titled 'History' and shows a sidebar with 'My Transactions' highlighted by a red arrow. The main content area has filters for 'All transactions', 'All eCurrencies', and date ranges (Feb 7 to Feb 10, 2025). A 'Go' button is present. Below the filters is a table with columns 'Type', 'Amount', and 'Date', containing the text 'No transactions found'. A 'Total: \$ 0.00' is shown at the bottom.

The bottom screenshot is titled 'Ask for withdrawal' and shows a sidebar with 'Withdrawal' highlighted by a red arrow. The main content area shows 'Account Balance: \$0.00' and a table with the following rows:

Account Balance:		\$0.00
Pending Withdrawals:		\$0.00
Bitcoin Account:	wallet: not set	
usdt trc20 Account:	wallet: not set	
Ethereum Account:	wallet: not set	

A red circle highlights the 'wallet: not set' entries in the table. At the bottom, it says 'You have no funds to withdraw.'

For Withdrawal Click on Withdrawal, set wallet and click submit
